

# OUR MISSION

We are dedicated to focusing on current challenges families face regarding their child's behavior, using a *holistic, trans-disciplinary* approach.

We are investing in the future of ABA by preparing more practitioners to fill the ever-growing shortages in the field, while conducting research to contribute to and advance best practices in the field.

We provide *exceptional, person-centered, neurodiversity affirming care* using cutting-edge behavioral techniques. We are grounded in compassion and assent-based practices.

# CENTER FOR APPLIED BEHAVIORAL SUPPORTS

## ABOUT US

In collaboration with the UK College of Education, the Center for Applied Behavioral Supports at Easterseals Bluegrass features Registered Behavior Technicians and graduate student therapists.

Our adaptive behavior therapy model will work to support families and children experiencing challenging behavior and help them live more harmoniously in their natural environments, emphasizing flexibility, independence, and autonomy.

**ALL ABILITIES.  
LIMITLESS POSSIBILITIES.**
